RESPONSE

Sir:

This correspondence is in response to the office action of October 24, 2002.

In the claims:

Please amend claim 11 as follows:

11. (Once Amended) A light source reader in combination with a light source, the light source comprising:

- (a) a light generator;
- (b) a sensor for sensing operational parameters of the light generator;
- (c) a light source data storage device permanently integrated with the light generator and operatively coupled to the sensor, for storing operational parameters data correlated to the operational parameters of the light generator; and
